Lovely Words

From Lovely Clients

QUINN & EMILY

"I can't say enough wonderful things about Stacey! She was so fantastic right from day one, coming to the most remote spot to look at the venue and scope good spots for photos before the day and then being so incredible on the wedding day! Have just seen our sneak peak photos and they are more than we could have imagined, can't wait to see the rest. Thanks again Stacey you are wonderful."

JAMES & KATE

"Amazingly talented photographer! We could not be happier with our wedding photos, and especially with a location like the beach on a sunny day which isn't easy to capture sometimes, however Stacey still took the perfect shots for us. She was also very friendly and efficient the whole time. Highly recommend!"

DAN & ASHLEY

"I am in awe of Stacey's talent & cannot recommend her enough as a wedding photographer. Every photo she has taken of Dan & I has been amazing. I cannot wait to see rest of our photos still to come! Stacey was so flexible with us & just amazing to work with. Thank you so much Stacey for capturing our big day so beautifully"

DANYON & EMMA

"Absolutely amazing! My favourite wedding vendor for sure!! Perfect communication right from the start, made us feel very comfortable and was great to have an engagement shoot to get comfortable in front of the camera. Sent us a sneak peak of 60 photos within 24 hours of our wedding and all of the photos were perfect! Was also great to have her second shooter there on the big day also! Highly recommend!!"

BRENT & LEIGH-ANNE

"Received my wedding photos back today and what can I say?! We are in love with them and over the moon with how they turned out! Stacey made the photos of the big day feel natural and fun. Would recommend in a heart beat. Thanks heaps Stacey, much love"

FAQ'S

How many photos will we get & how will we get them from you?

The number of photos you receive depends on your package. I supply you all the quality images, edited and on a USB stick, all ready for you to pop into a computer and watch your beautiful story unfold.

What does the assistant photographer do?

I assign the assistant photographer to take photos with one group getting ready and I will photograph the other group. Whether that be bride and groom, bride and bride or groom and groom. This can also be entirely your call as to who you would prefer with which group, however, I am almost always with the bride and my second shooter with the groom. The Second Shooter also covers things from a different angle throughout your day or for example, while I'm busy with group and family shots, they will cover family and friends mingling/kids playing etc.

How long does it take for us to receive our photos?

I take the utmost care editing your photographs to ensure you receive an amazing set of images. This will take up to 8 weeks, however, I will send you a selection of around 20 beautiful photos within the first week after your wedding day.

Would you travel to photograph our wedding?

Of course. I love adventures, so I'm happy to travel worldwide to capture your special day! I include local travel within close proximity of the Bay of Plenty for my packages.

Will you direct us on how to stand and what to do during the day?

I will definitely help you with this. I will be giving you direction but in a very relaxed and enjoyable way. Most of the time I will just get you to make sure that you enjoy each others company. Laugh, talk, interact and I will capture the love and emotion as your day unfolds

How much experience have you had?

I started my photography business 5 years ago. I began as an Assistant Photographer initially, and have progressed into being the main photographer for all Oh Joy! Photography weddings
